

Modular

Specifications

- Modular furniture combinations in a range of finishes - See back page
- 40mm skirting overhang on most home office pieces
- Lighting options available on some models at an additional fee - See items with lighting prices
- All furniture can be assembled in situ for your convenience

Transform any room or corner in your home into an attractive and practical work area. The units can be combined to create a working environment that exactly matches your needs, in a choice of finishes. These units are highly practical, and by combining continuous tops, you can achieve a smooth, seamless work surface. Each of the units are also available as individual free-standing items.

Made in the UK, this range is crafted from the finest quality wood and melamine board with each stage of production carefully monitored to maintain quality and achieve a superior standard of furniture.

Bespoke sizes are available for some items. Please state the height, width, depth and number of shelves required.

Please note all sizes are approximate

August 2026

Please note, each unit has tops which are 1.8cm thick and solid 2cm backs.

A one-piece desk worktop can be added to most combinations
